Yes, we do have information on Ohio Oil Refinery. ODEQ performed all investigations. From PA to ESI. The site was NFRAPed in 2000 and referred to the ODEQ. All information is in SDMS. My best guess is to contact ODEQ. The site has a long history of real estate developers, landowners and lawyers.

Philip,

Do we any information on the Ohio Oil Refinery in Bristow, OK? The email below mentioned it was NFRAPed.

Thanks

If she is looking for EPA information, then perhaps Chris' group will be the best source. It is not on the NPL, and as you note, it is under the ODEQ VCP.

Subject: RE: Media question--Ohio Oil Refinery site in Bristow, OK

Do we have any information on the Ohio Oil Refinery site that's easily accessible? The reporter submitted a FOIA but if we have something to give her before that's fulfilled, that would be helpful.

Jennah,

Katrina Coltrain, an RPM from my Section, was at the Wilcox Refining site in Bristow, Oklahoma last week, conducting remedial investigation field work at that site. Katrina noted that Marathon Oil had workers at the Ohio Oil Refinery site, across the street from Wilcox Refining, conducting work under the ODEQ voluntary clean up program. You might refer the reporter to ODEQ for more information regarding that voluntary clean up effort.

Hi Blake and Susan,

A reporter in Tulsa asked about the Ohio Oil Refinery site in Bristow, OK. She said there were workers there at the end of last week. The site was NFRAPed at some point, but I don't know when. Do you know if we had anyone there?

Thanks,
Jennah
